THE GURU

Who would have thought she would even consider it?
But Grandma's becoming computer literate!
She hangs out in chat rooms. (She's almost a resident.)
She e-mails her grandkids. She faxes the President.
She no longer drives out to Sears or WalMart.
She just logs on their websites and loads up her cart.
So hide all the heirlooms. Lock the silver away.
Just a matter of time 'til she logs on eBay!
